

To the Board of Supervisors:

Re: Renaming sections of Blantyre Rd. and Georgetown Rd.

Property owners along the northern end of Blantyre Road respectfully request that you consider changing this area's road names to stop the confusion currently prevailing. Some of us regularly encounter lost drivers trying to find an address on Blantyre Road or Georgetown Road or have had deliveries delayed when drivers could not find our addresses. In one particularly troubling incident, Fauquier County's animal control warden could not find the Weeden's property to deal with a stray dog.

The undersigned property owners, including all those with addresses subject to change, request the following:

- 1) Change the name of the dirt road section at the northern end of Blantyre Road. Some suggestions that do not seem to conflict with existing road names include: Trapp Branch Road (after the branch of the Broad Run stream that runs along the dirt road) or Stover Road. Our first choice is Trapp Branch Road. Please see Figure 1.
- 2) Allow Georgetown Road to end where it naturally ends at the stop sign on Georgetown Road at its intersection with Route 628. Please see Figure 1.
- 3) Rename the northern section of Georgetown Road to Blantyre Road. In other words, allow Blantyre Road, running north from Bethel, to continue along an unbroken paved surface past Georgetown Road and past the dirt road all the way to Route 55. (In driving north on the "new" Blantyre Road, one would not encounter a stop sign or notice any change in the road surface or road markings from Bethel all the way to Route 55 (despite the current depictions on maps).) Please see Figure 2.
